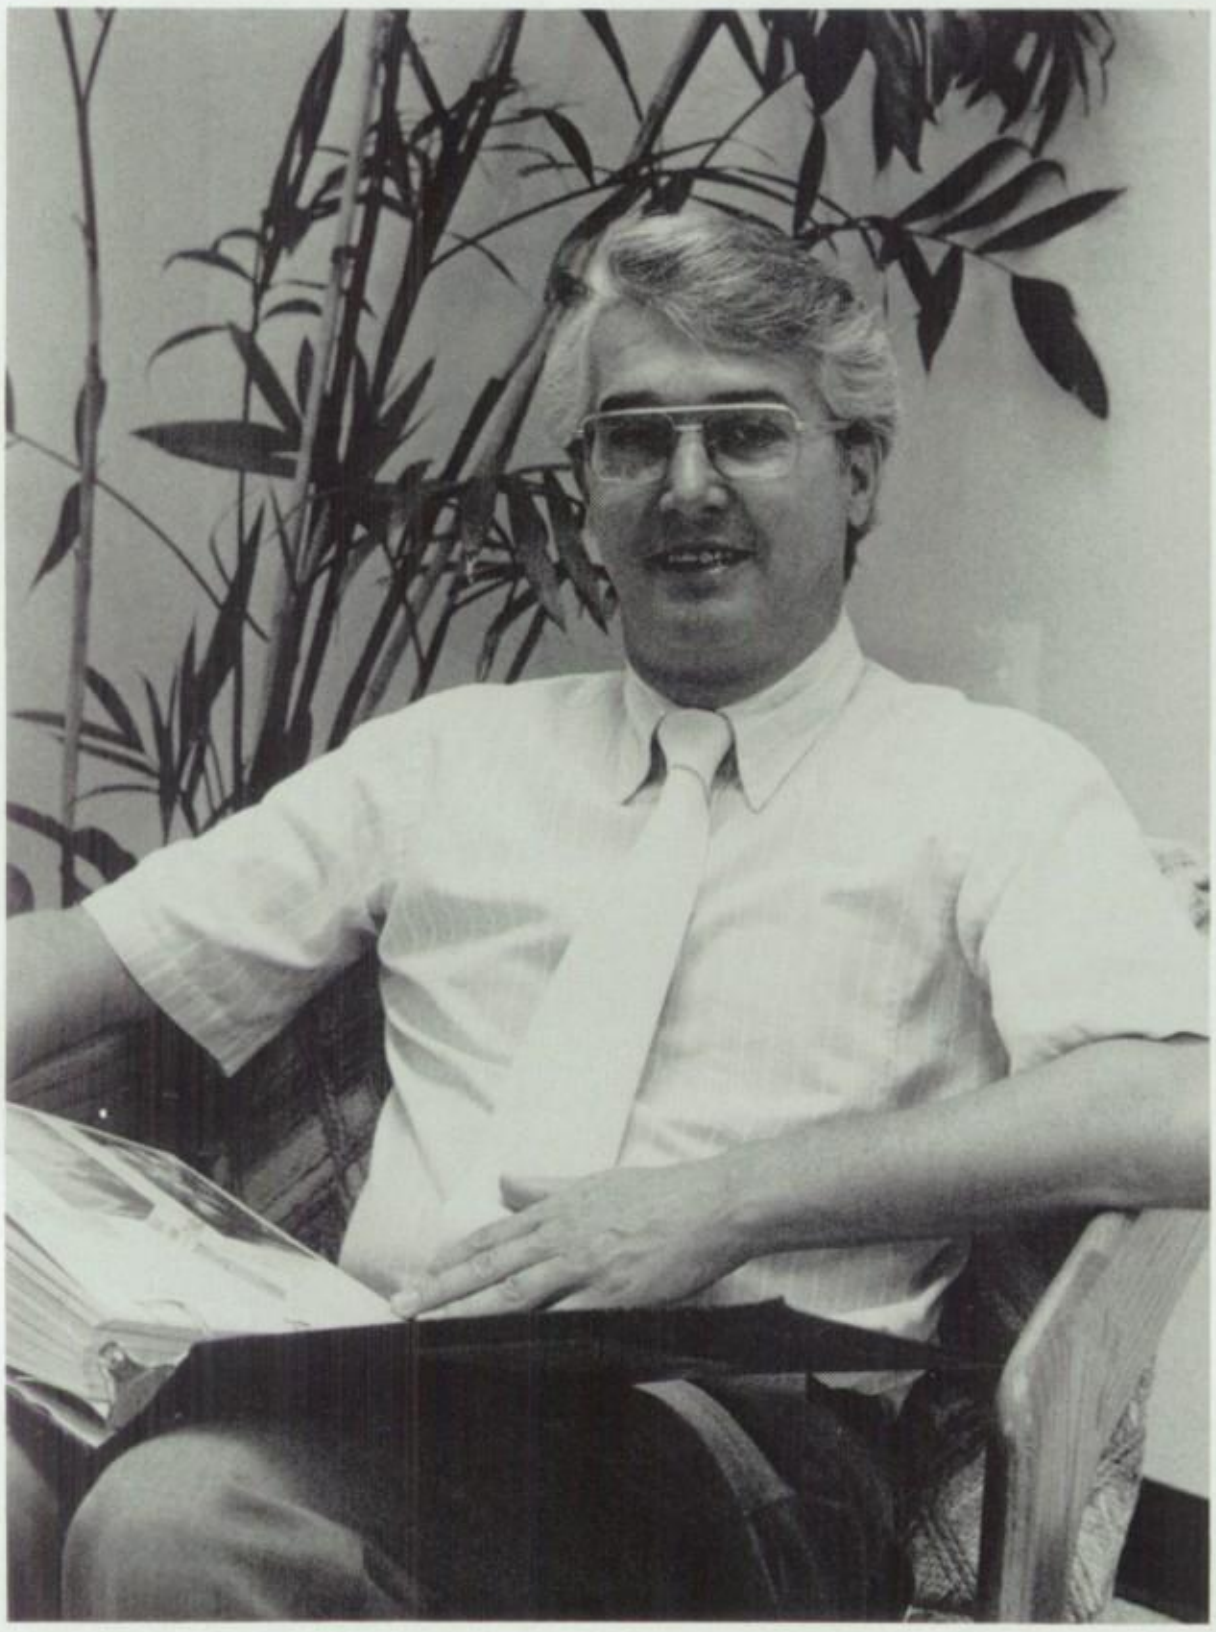
HEADMASTER'S MESSAGE



Dr. Joel C. Monell

TO THE CLASS OF 1984:

The Class of 1984 is unique in many ways. You are, perhaps, the most significant link in a chain of events that connects our hopes for the future with our experiences of the past. In the midst of dramatic growth at P.C.D.S., you are the smallest graduating class in seven years. Some of your class members have been with us since Kindergarten, and one joined us this year. You are the first class to have experienced the revised Upper School Schedule, which we hope generated an atmosphere of freedom and flexibility in which you could pursue individual educational experiences and interest. Your pursuits have been many, and you have infused the new Upper School campus with your energy and your ideas.

Whitney Griswold, former President of Yale University, once observed that, "The only sure weapon against bad ideas is better ideas." I have recently visited with each of you, and I am impressed with your ideas. As you leave us to take your place in various colleges and universities, may they continue to get better and better!

Sincerely,

Joel C. Monell

Joel C. Monell
Headmaster

Cheering our teams to victory, listening to the
Police, or just being with friends;
The time slips away so quickly,
it seems as though the year passes so swiftly.
For these reasons we have memories.

Through these memories, we recall the school year of 1984.

The bizarre mini-skirts, those mirrored eyes, or
the array of "Funky Do's,"
Again taking our brush, we begin to paint a
scene - one depicting change of '84.
The trends shifted, hemlines were raised, pant
legs pegged,
and the world of fashion at P.C.D.S. became a
test of individuality.

Color and style varied with the mood of the day.
So we review our scene - color, fashion, and change
creating a picture of styles and fads of 1984.

The excitement of the carnival, plays, clubs, and all the victorious games - like an artist with his oils we take these memories and paint a colorful scene of 1984.
The senior prank - what will it be?
The juniors working hard on the prom to make a memorable event.
All these things and more add to the unity and spirit of P.C.D.S.

There are no perfect people, only perfect moments.

Today seems sad, so much has changed.

Do you know, where you're going to, do you like the things that life is showing you, where are you going to, do you know?

Take a kiss upon the brow!
And, in parting from you now,
Thus much let me avow:
You are not wrong, who deem
That my days have been a dream;
Yet if hope has flown away
In a night, or in a day,
In a vision, or in none,
Is it therefore the less gone?
All that we see or seem
Is but a dream within a dream.

Love, all alike, no season knows no clime,

After the tears and
laughter you and I've
been through
How can you ask me
what love is?
Love is a chain just a
chain reaction.
Once you break it you
can't fake it.
Once you lose it or
missuse it
You can't hunt for ever
and never find it.

You come home broken like your soul
is black and blue, and then you ask me
What love is. Love is a chain just a
chain
Reaction. Would I lie to you . . .

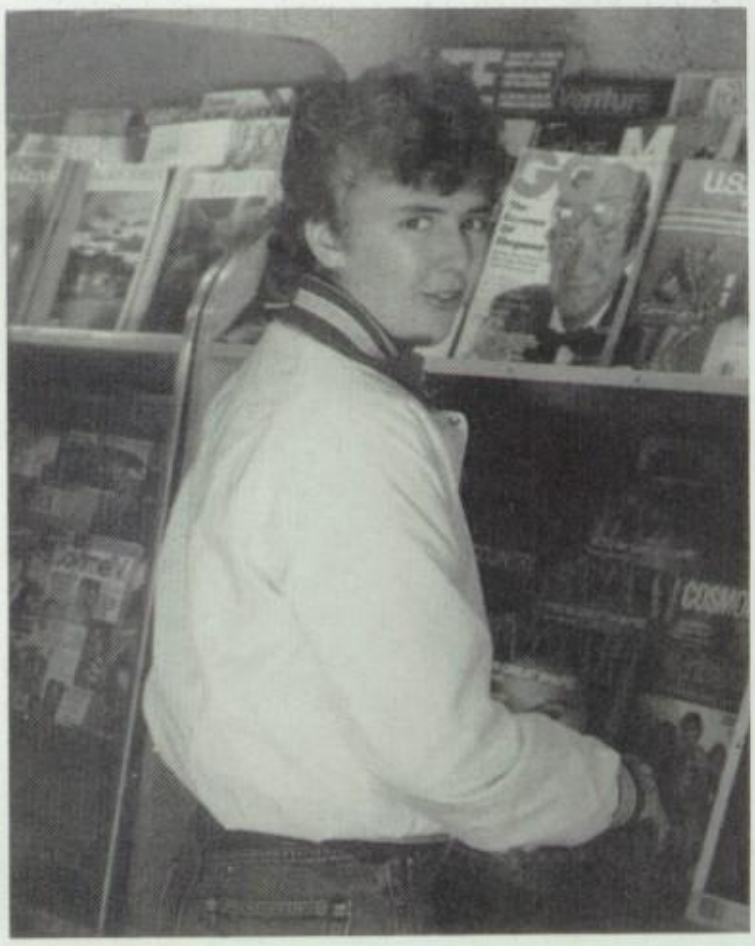
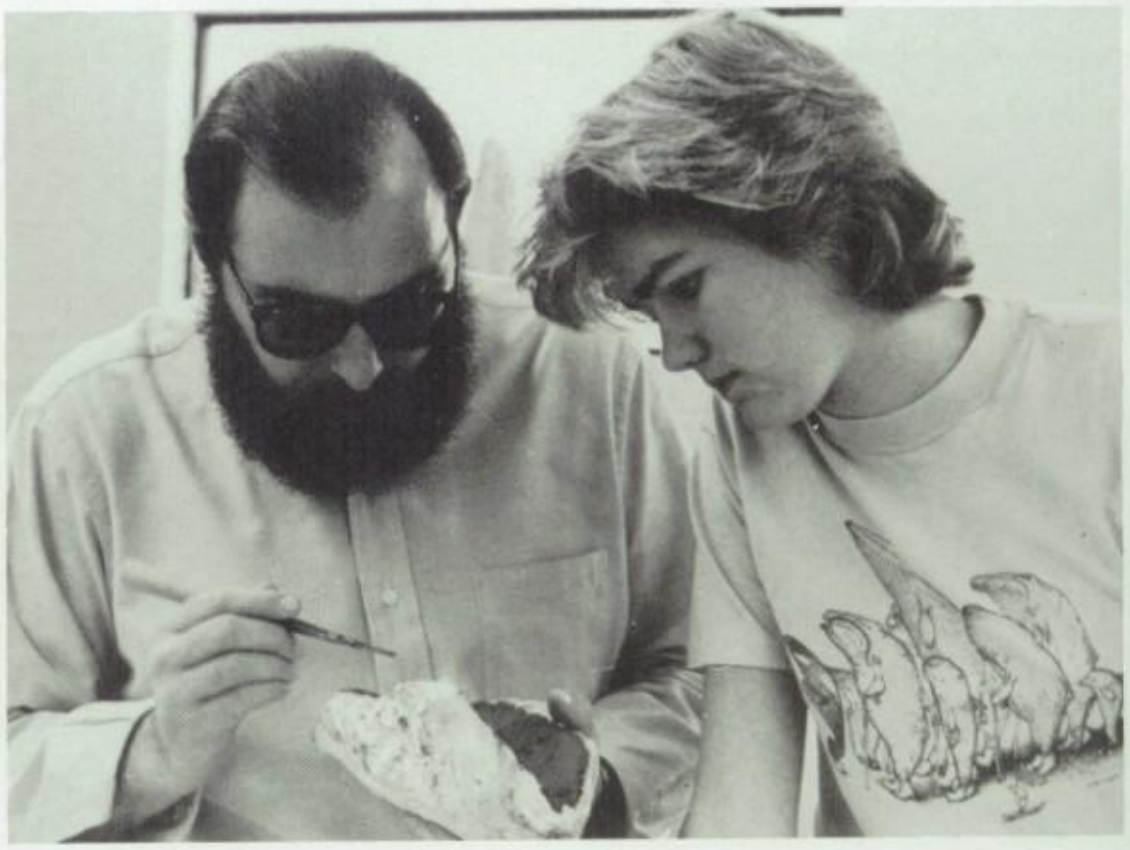
SENIOR CANDIDS



ACADEMICS

VISUAL ARTS

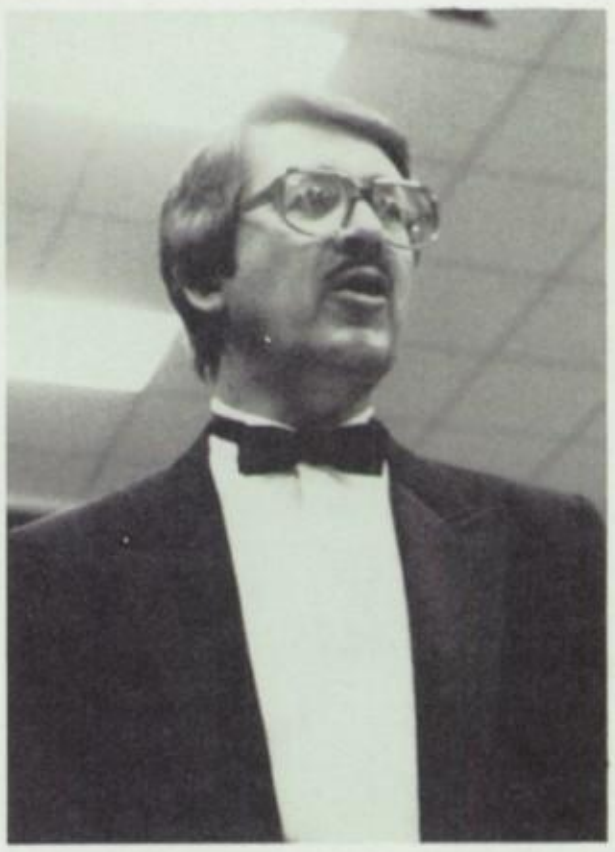


The Art Department seeks to provide students with a broad curriculum in two and three dimensional studio courses, as well as Art History. Independent thinking, creative expression, and a willingness to experiment are encouraged.

Six P.C.D.S. students received United States National Art Awards given by the United States Achievement Academy. Recipients were Laurie Mittenthal, Melissa Michaelson, Sally Miller, Margie Woods, Frederika Ranucci, and Joy Schreiber.

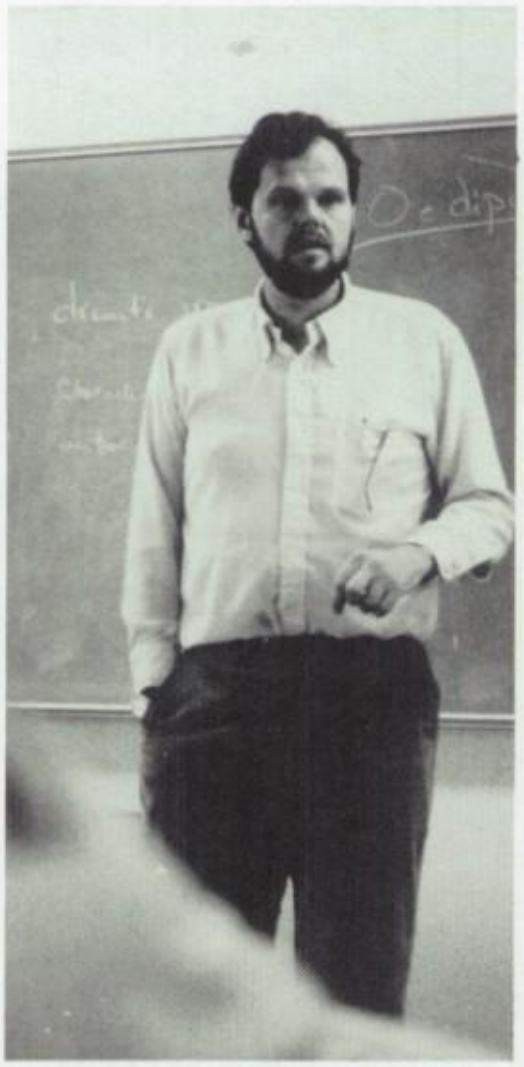
MUSIC

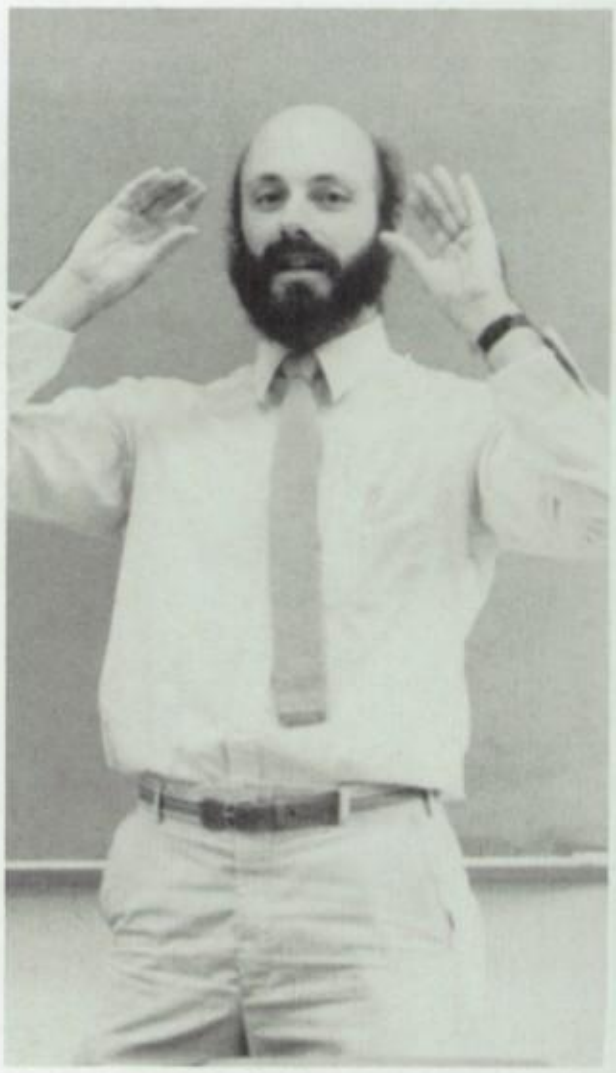
The Upper School Music Program consists of a jazz ensemble, a choir, strings, and guitar instruction. The various groups participate in many competitions and performances. All of the branches of the program are strong and concentrate on the basic skills as well as developed skills of the individual student.

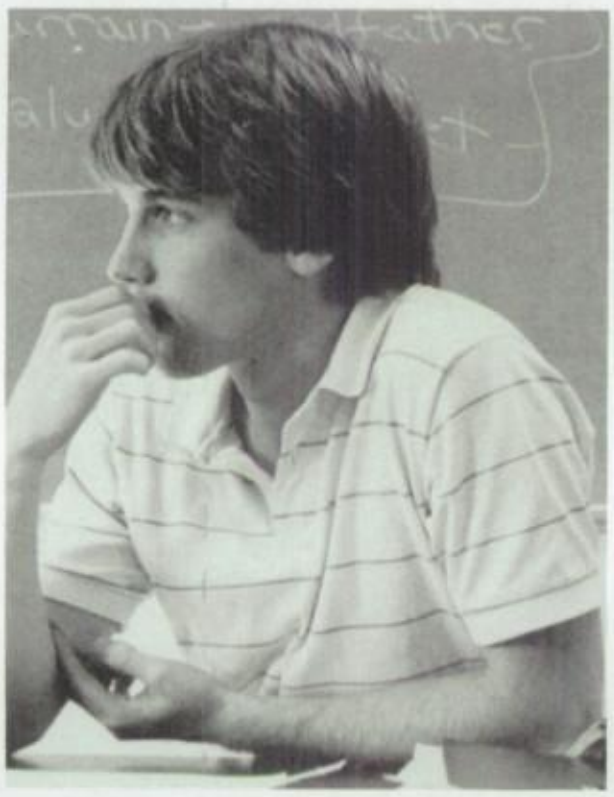


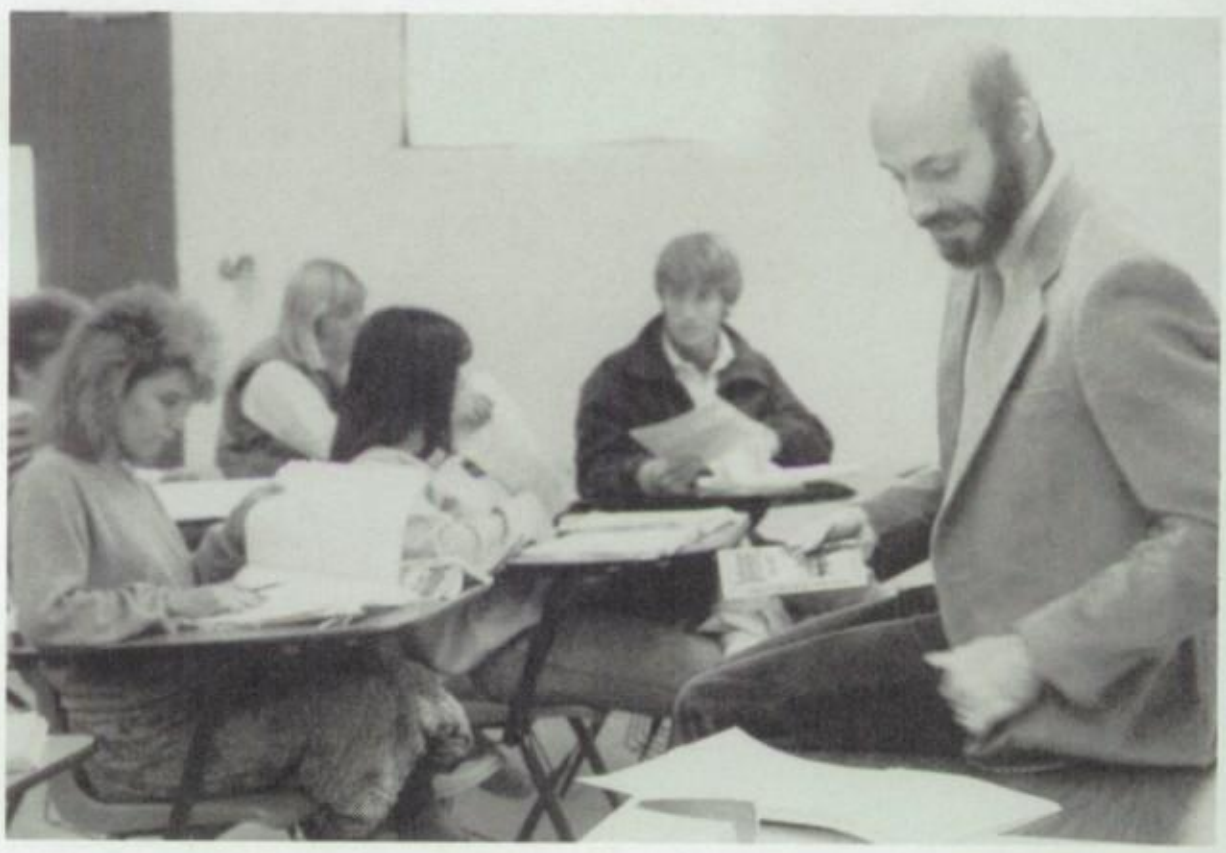
ENGLISH

The English program in the upper school begins with the study of grammar, composition, and the literature of Greek mythology in the ninth grade. Tenth graders currently receive a survey of American literature, and juniors and seniors can choose either a survey of British literature or a wide variety of elective offerings in the areas of literature and writing.

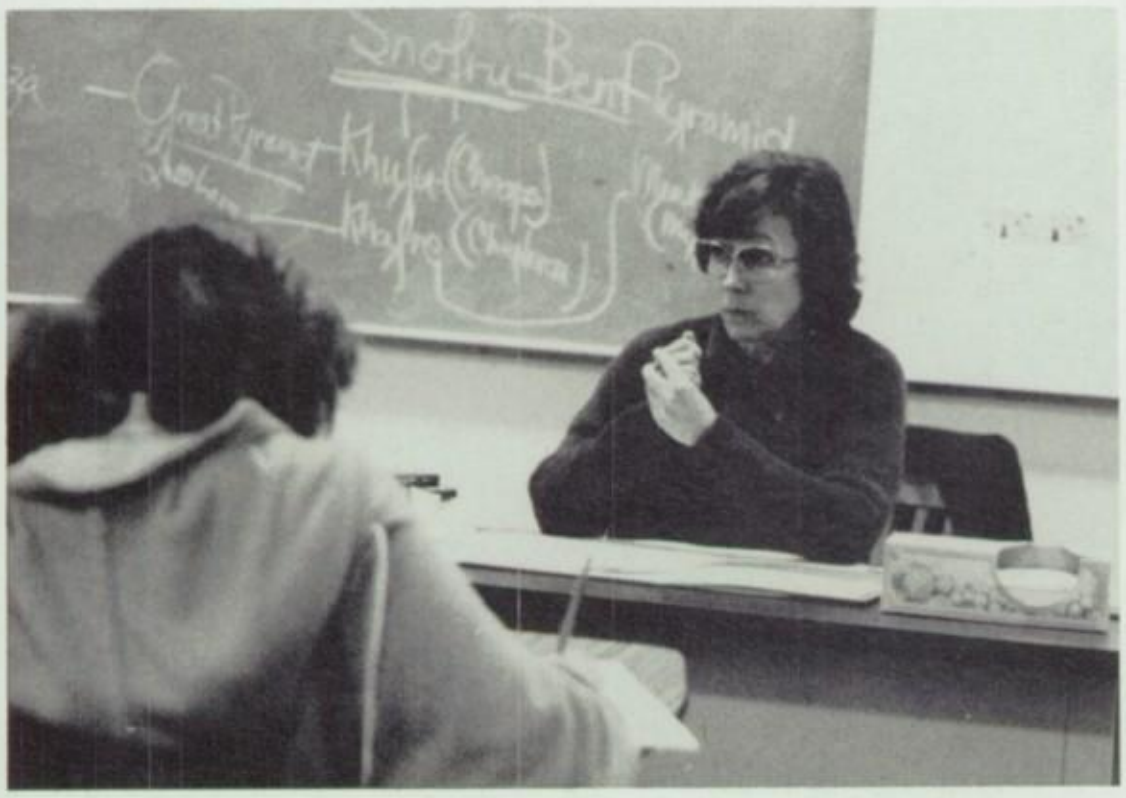




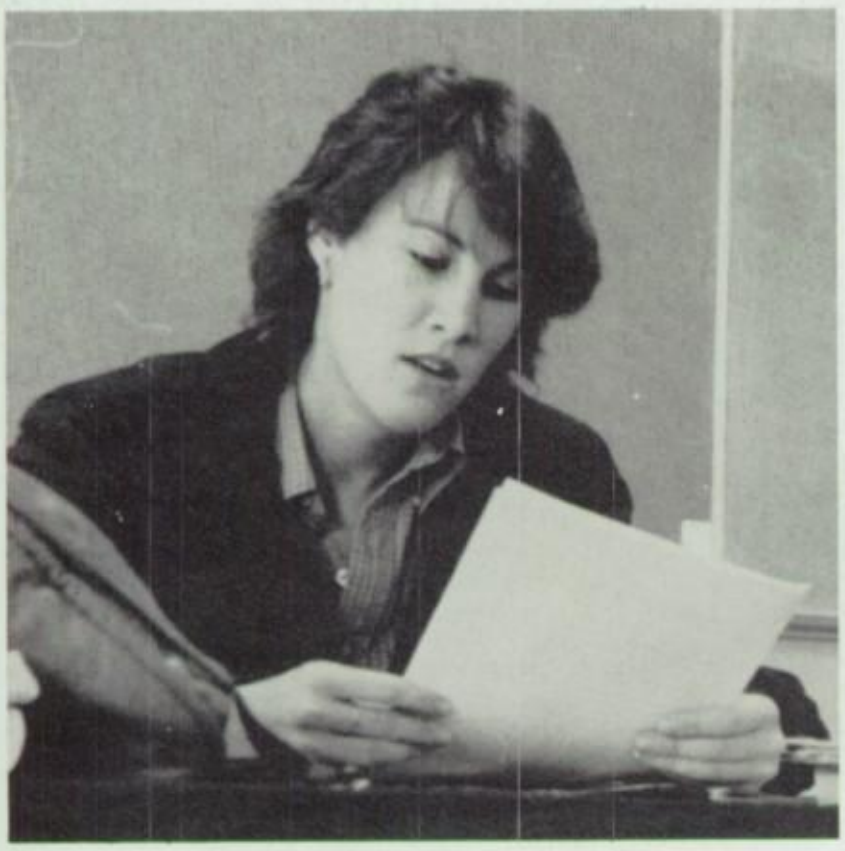


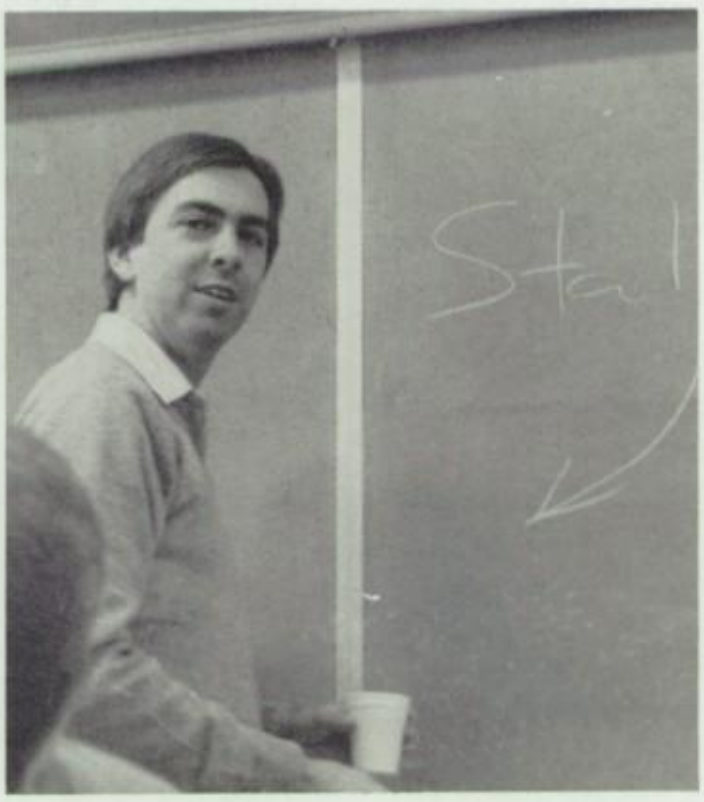


HISTORY



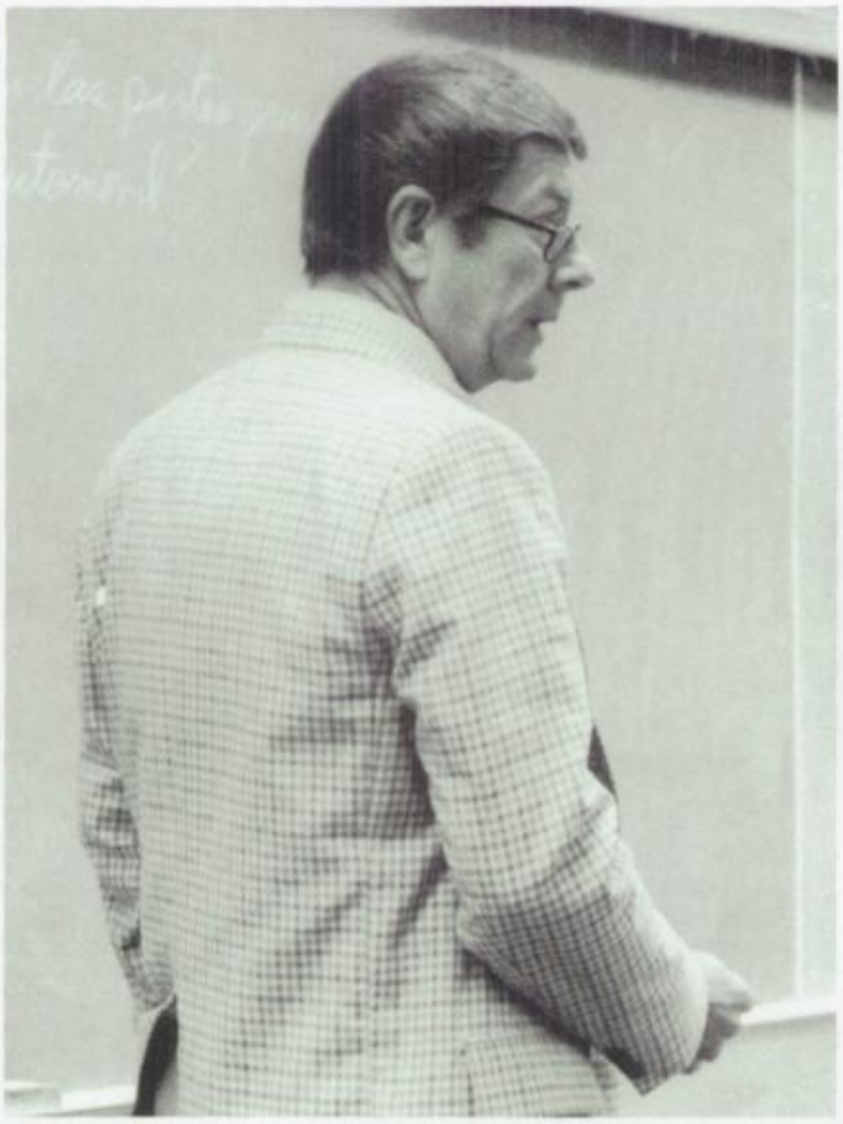
The History Department attempts to provide students with a broad historical perspective of the origins and development of western civilization from prehistory to the present. This is accomplished through a three year required sequence of courses, beginning with an introduction to Ancient and Medeivil History in the ninth grade, continuing on to a survey of Modern European History in the tenth grade and culminating in an examination of American History during the junior year. In addition, a wide variety of electives drawn from the arts, humanities, and social sciences are available to those students who wish to pursue their studies in greater depth. In addition to the aquisition of a systematic body of knowledge, students will also profit from the development of those basic analytical skills which are necessary for the orderly study of any future subject.





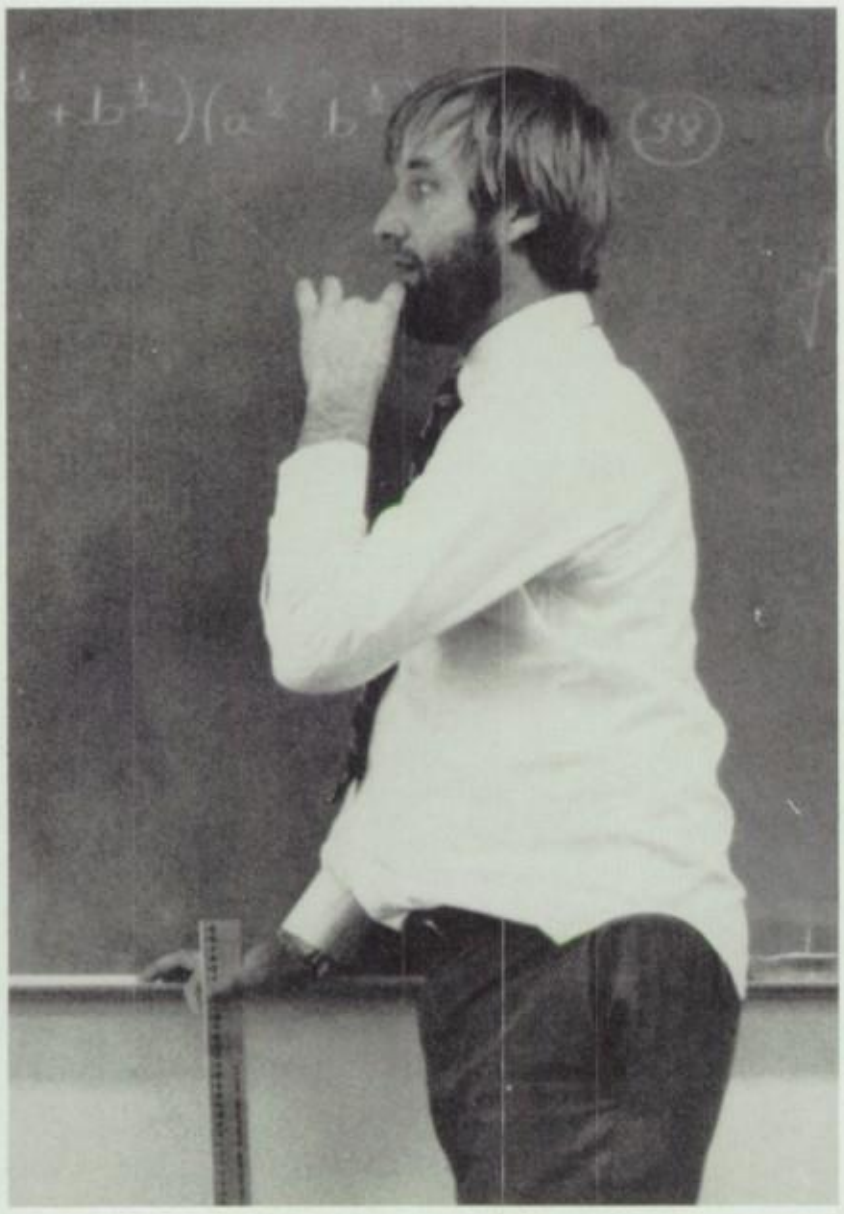
PCDS would like to
extend a welcome to
the new chairman of
the Upper School History Department
Citizen Jeffrey Stokes

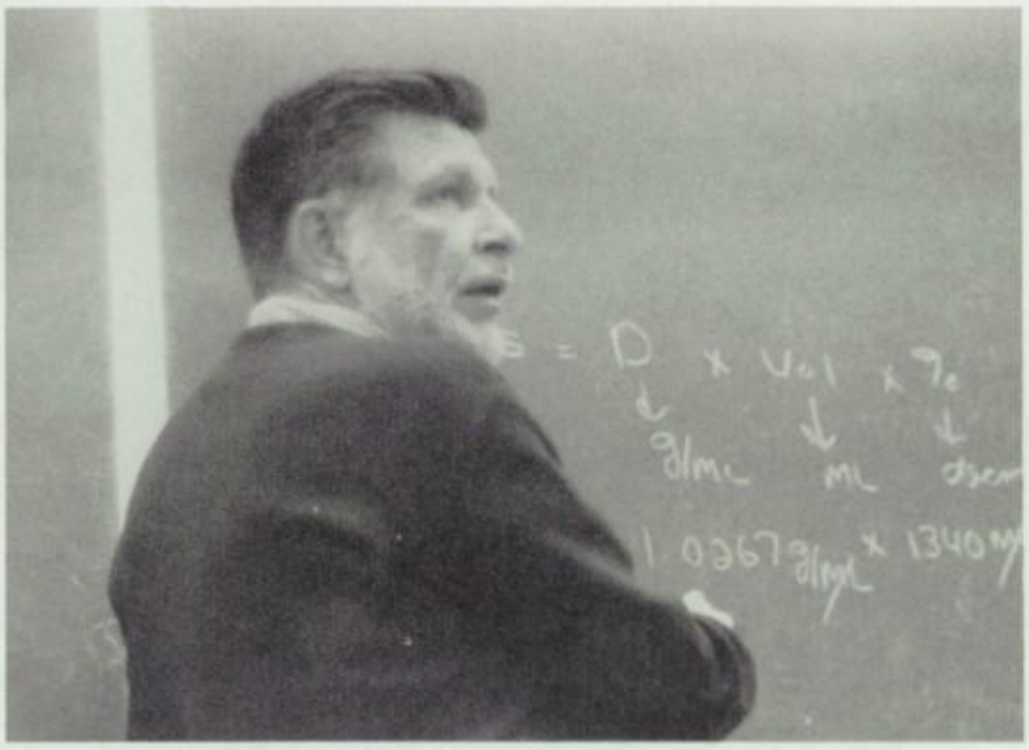
FOREIGN LANGUAGE

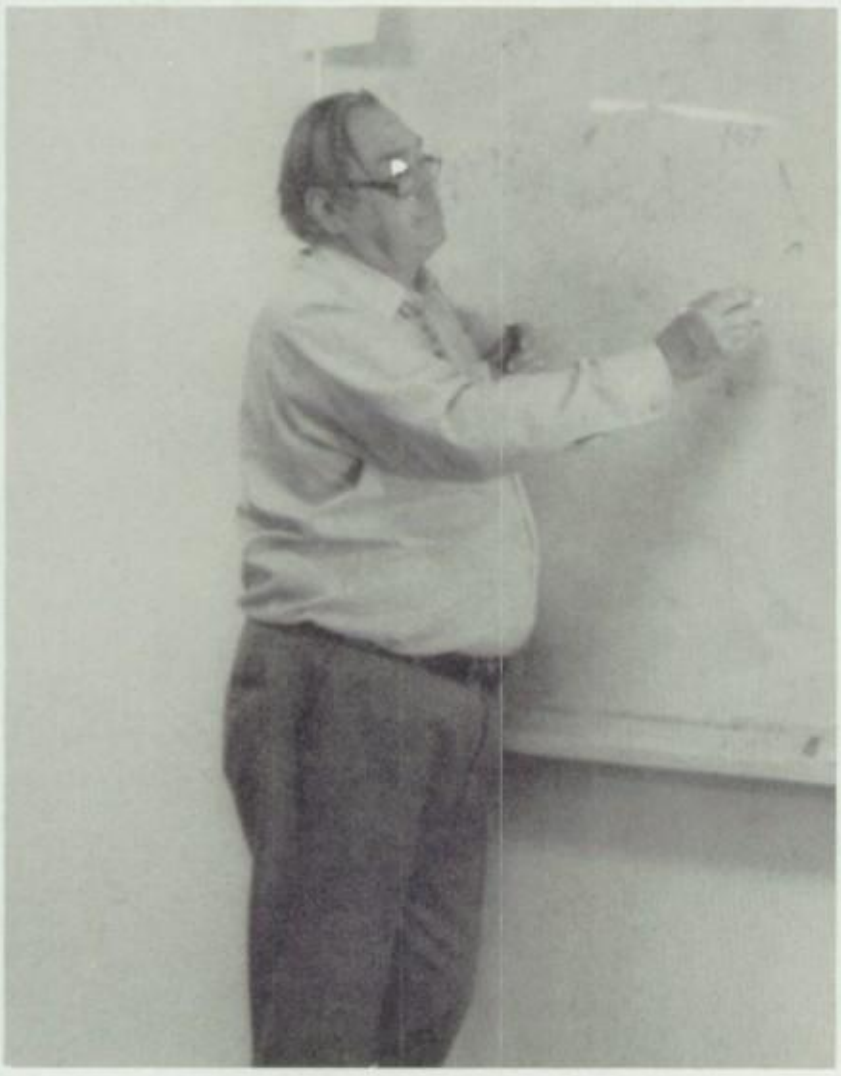


Understanding and appreciating cultures, other than our own, is an important feature of the foreign language program. When studying a language, the student becomes familiar with the art, religion, politics, geography, history and social issues of that country. Courses in French, Spanish, and Latin are offered.

MATHEMATICS







"Neglect of Mathematics works injury to all knowledge, since he who is ignorant of it cannot know the other sciences of the things of this world."

Roger Bacon

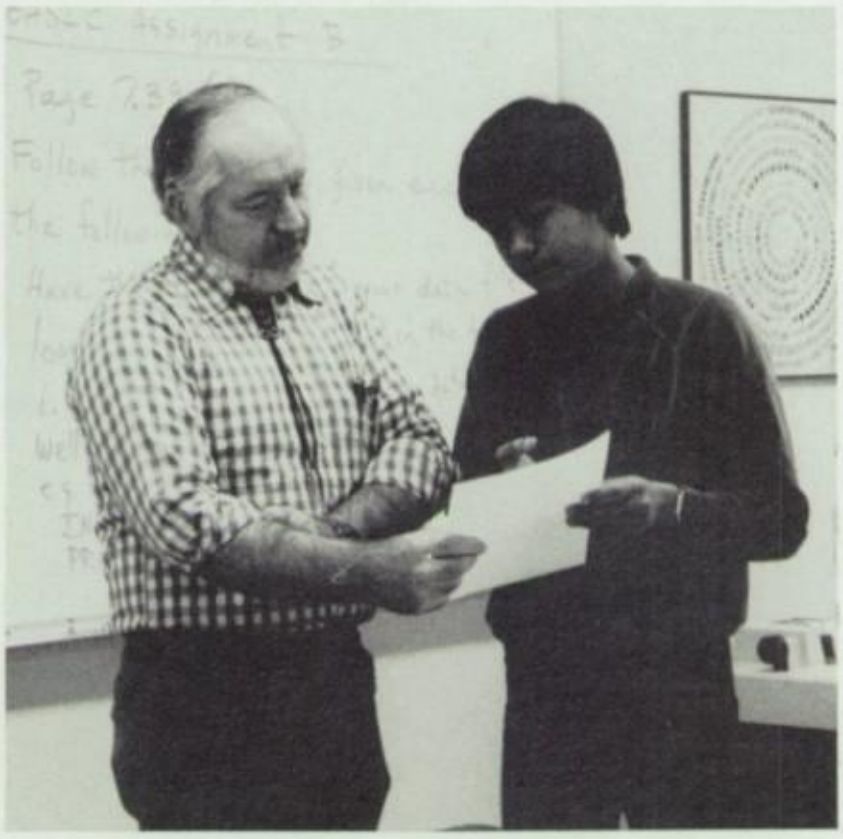
The Mathematics Department seeks to avoid the neglect of which Bacon speaks by offering courses from Algebra I through The Calculus. In addition, it seeks to apply the knowledge gained to areas in science and "the things of this world."

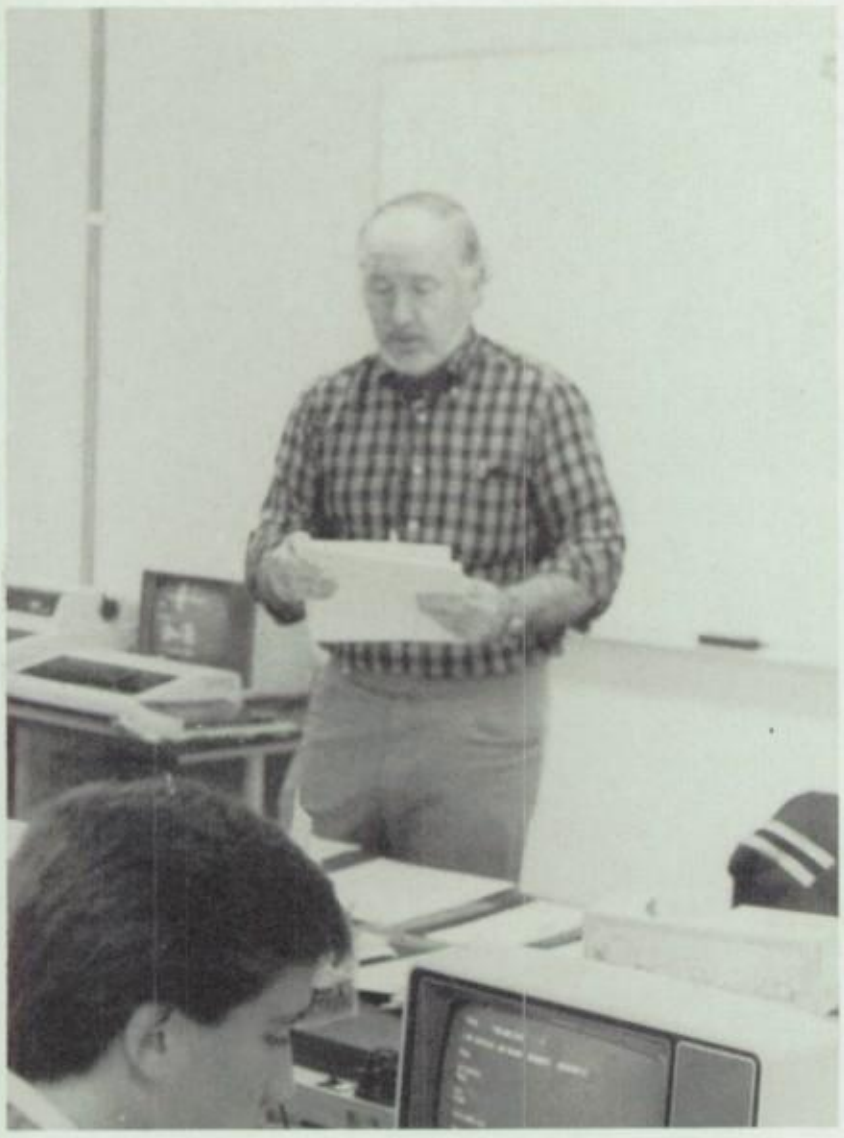
SCIENCE

"Science is an essentially artistic enterprise stimulated largely by curiousity, served largely by disciplined imagination, and based largely on faith in the reasonableness, order and beauty of the universe of which man is a part."

W. Weaver

COMPUTER SCIENCE





The Computer Science Department uses Digital equipment VAX-730 to teach computer science skills to all students in the school. In the Upper School, programming courses in BASIC, Pascal, and COBOL are offered.

STUDENT SENATE

This year has been a turning point for the role of the Student Senate in the Upper School. In working and planning together, the five student members and two faculty members of the Senate have striven to generate enthusiasm and school spirit among the student body. Through sponsoring activities such as Spirit Week, food sales, and dances, the Student Senate has encouraged students to become involved in what is happening on campus and to take pride in their school.

The 1983 Varsity Soccer season began with thirty players involved in tryouts for the team. After a week and a half of hard work, a squad was finally selected. The players seemed to have great potential for the state championship, but an early setback was suffered when Rob Portnoy damaged ligaments just prior to the beginning of season play. The first three games did not really test the Eagles, but they did show the strength and speed of Chuck Bain.

After beginning the season with three straight victories, the first setback was a defeat at the hands of Valley Lutheran. But this was followed by seven victories concluding the regular season of play.

The championship game was played against Valley Lutheran and despite dominating the first half, P.C.D.S. found itself losing at half-time. However, we drew level with a superb goal from Rob Portnoy, and leading scorer Chuck Bain scored to give the Eagles a well-deserved championship.

Captain Pete Cove was the game's most valuable player. Special mention must be made of goalie John Wechsler, the defense of John Morey, Brett Shire, Kyle Baird, and senior Carter Sweet. John Snead and Andy Shanken's running complimented the skills of Pete Cove. The future looks bright for next season.

After an impressive start, 6 wins - 0 losses, this year's varsity volleyball squad came upon hard times and lost 5 in a row. The jinx was finally broken with a tough victory over Verde Valley in the divisional playoffs.

The first game of the State Tournament was against Orme. P.C.D.S. came up with a stunning two game victory over the eventual state champions.

Seniors Caren Kelso and Kiffie Spangler and Freshman Lara Sosnow were top scores for this year's team.

Exciting, power volleyball was the hallmark of this year's team. A tradition has begun.

YOUNG TEAM GAINS VALUABLE EXPERIENCE

During the 1983-84 season a young Eagle Basketball Team gained valuable experience for the future. Led by juniors Cliff Smith and Rob Portnoy the team showed definite improvement culminating with a 52-47 victory over Cactus Shadows. The Eagles are looking forward to the 1984-85 season.

The Lady Eagles finished the season with a victory over Judson to finish the regular season with 7 wins and 6 losses. Their overall record was 7 wins and 7 losses as they lost a pre-season game with Orme. The team was led by a strong defense, which kept them in most games, especially against the stronger teams in the league. They showed great improvement throughout the season and finished with two of their best games of the season. With almost everybody returning we can be very optimistic about next season.

There is no friend like an old friend,
Who has shared our morning days.
No greeting like his welcome,
No homage like his praise.
Fame is like the scentless flower,
With gaudy crown of gold;
But friendship is the breathing rose,
With sweets in every fold.

p.p.s. Hope to see you next year, if I don't flunk out.

I go to bed late on days that I don't have to go to school - ~~either~~

Steven,

We made it through the 8th grade. It's amazing! Too bad we didn't get to know each other earlier in the year. You helped me whenever Drew got me down - Thanx!

It was fun having you at the Van Halen concert. I ♡ed it when you fell and you couldn't get your foot out of the chair! at your next concert you had better breathe a lot and I mean a lot deeper! maybe I'll see you at some other concert.

Too bad you blew Christy off. - Don't ask me why - I just felt like saying that.

can I take up your offer on a jam? (OK) And never do coke before riding a motorcycle. never have your bro's friend drive your mom's car to Mexico!! Keep in Touch!!

Steve,

So, what the fuck, we failed all our efforts but we [redacted] hate, jun getting fucked up on the way. Shit! We never got fucked, but give me one more year. Mr. Graham + all of his little bendover buddies let out guts, but [redacted] they're a bunch of old fucked up assholes anyway. I pity you! I'm getting out of here, but you were unfortunate enough to stay in this shithole. This year was a fucking waste, no girls, no parties, no breakes. This place is a whole bunch of [redacted] fuckedup spoiled bitches. Poor fellow. Try to get fucked. Get wasted while drunkard are gone. O.K. Just don't take too much shit from that crusty old english fuck. Have fun.

- Troy
